BEETLE JAIL.....	\$3.00

### LATSHAW'S BEE FOOD

**NEW** Feeding Latshaw's Bee Food provides newly established packages or colonies with vital protein, carbohydrates, vitamins and minerals - especially early in the season. Poor weather conditions can make foraging a challenge for honey bees. Providing readily available protein ensures colonies have plenty of protein when raising those early season foragers. Latshaw's Bee Food can also be fed during pollen shortages that may occur anytime during the beekeeping season.

**Sold in a convenient 2lb bag for \$12.00 or 2 for \$20**

**Beekeepers simply mix water into the Latshaw's Bee Food formula until achieving the desired consistency**
